Under the caption "Possible Congressional Candidates," the Salt Lake Argus has the following: "On the question of putting up Judge King for congress the democrats are divided. King has given his sponsors for the position his non-acceptance, but there is a strong and growing sentiment favoring Sam Thurman for congress. Malin M. Warner is also spoken of for the position as well as half a dozen others. Warner is an exceedingly strong man in his party. He has been here about four years, his last abiding place before his arrival being in Colorado, where his father is a successful newspaper man, a profession Malin followed before turning himself to Blackstone. He was counsel in the now celebrated Enoch Davis murder case, and in it made a splendid record. Sam King is also believed to be on the political auction block but just what he is after no one but himself knows."

## ARMOUR'S POOR RELATIONS.

The Big Packer Tells a Funny Story About One He Hasn't Made Rich.

It has been a matter of current report for years among board of trade men that Phil Armour has no poor relations, says a Chicago newspaper man. "He will not allow any of them to remain poor," a veteran of the board remarked by way of explanation of this unusual good fortune of a rich man. "He makes them all rich."

"I have heard that story before," Mr. Armour remarks, with a smile, when one of his friends asked him about it the other day. "But it's a mistake. I have enough of them."

Then the big packer burst out in a laugh, and his friends knew a good story was coming.

"One of the poor kind—he lives down in Illinois—is one of the most persistent men I ever knew. He keeps writing and writing for money all the time. He is not a bad fellow, only improvident, and if he displayed the same energy in attending to business that he does in writing to me he would have been rich a long time ago. Well, he kept sending one letter after another, saying that if he only had \$500 he would be all right. He repeated this so often that one day I told my secretary to send a letter saying that if he would let me have \$500, I would send him \$500."

"Well, sir," and Mr. Armour's sides shook with laughter, "as soon as the mails could bring a reply I got it. He said, 'Make it \$1,000 and two years,' and I thought it was such a clever turn that I sent the money."

"What happened next?"

"In about three months he wrote again, saying the agreement was off because his wife hadn't been included."

Mr. Armour seemed to think the whole thing was a great joke and especially enjoyed the shrewdness of his poor relation.

## Critical Logic Failed.

The late Sherlock Holmes had a favorite dictum: "Eliminate the impossible, and what is left, however improbable, must be the truth." This was not at all in accordance with the saying of Victor Hugo: "Nothing is so imminent as the impossible. What must be always foreseen is the unforeseen."

Most of us will agree, from experience, with Hugo rather than with Holmes. The impossible does happen. When "Merely Philbrick's Choice" was published in the "No Name" series, the critics were aghast that it seemed to be written by Helen Hunt Jackson. But, as those who knew her love for flowers and acquaintance with nature, also pointed out, she could not be the author, for there were several glaring mistakes in the naming and placing of blossoms in the story. Yet, as was afterward disclosed, she did write it. So all the theorizing went for nothing.—Philadelphia Press.

The most remarkable meteor on record in that of Dec. 31, 1876, which originated in Kansas, glided over Missouri to the south of Lake Michigan and became lost near Niagara falls. It exploded with a report like that of an earthquake.

## It May Do As Much for You.

Mr. Fred Miller, of Irving, Ill., writes that he had a severe kidney trouble for many years, with severe pains in his back and also that his bladder was affected. He tried many so called kidney cures but without any good result. About a year ago he began the use of Electric Bitters and found relief at once. Electric Bitters is especially adapted to cure all Kidney and Liver troubles and often gives almost instant relief. One trial will prove our statement. Price only 50c. at Smoot Drug Co.

## MEXICAN LANDS

Thirty Thousand Acres of Excellent Land at a Low Price and Upon Easy Terms—Intending Purchasers Should Write to Mr. Britton Davis at Corralitos State of Chihuahua, Mexico.

For sale 34,000 acres of land, a part of the Boca Grande Grant, situated in the northwest part of the state of Chihuahua, Mexico, near the U. S. boundary line, 50 miles due south of Deming, New Mexico; one and a half miles on each side of the Casas Grandes river, and having a range of at least 75,000 acres.

This tract affords a range with permanent water, unsurpassed, an examination is invited.

The title is direct from the Mexican government.

This is a fine cattle country, and the land is located so that with suitable dams and ditches a large portion of it can be put under cultivation. It is owned by responsible Americans, who desire to dispose of it to settle the estate of the principal owner who recently died.

It was acquired with a view to the organization of a colonization company.

A large and prosperous Mormon settlement is situated adjoining the above tract, and that circumstance makes this tract of great value and interest to the people of Utah. It would be well for some of our capitalists to investigate this matter.
